

Brian Quezada

I am a successful musician now turned to a field in software development. I believe many of the skills I learned as a musician translates to the field of software development. The dedication and curiosity to learn new things on your own and figure out new ways to improve your skills and knowledge. I am looking to start my new career in software development thru my studies at LaunchCode..

WORK EXPERIENCE

Adjunct Professor — Miami Dade College, Miami, FL

August 2014 - PRESENT

I teach music courses such as Music Theory and Jazz and Popular music in America to college students. I keep attendance and grade assignments and exams.

Trainer/Instructor — Kelley Connect, Miami, FL

February 2018 - June 2018

Train incoming employees on company policies and procedures. Instruct employees on job content and product knowledge. Teach soft skills and customer satisfaction methods.

Group Ship Coordinator — NCL, Miami, FL

MONTH 20XX - MONTH 20XX

Review daily reports in Microsoft Excel. Sort reports for correct ships and dates. Create a Money Due report in Excel for entire department. Handle incoming calls from travel agents and guests. Answer all correspondence in a timely manner. Handle group escalations and inventory adjustments.

PROJECT EXPERIENCE

Project TuDu! — A simple Task app

A simple task management application. It features creation of personal and group projects. Handle individual tasks and keep track of its progress. It features a user log in and a database to store projects and tasks. For more projects please visit my portfolio site brianquezada.com
